

JBOXSWITCH

Dual Junction Box with Integrated 2-Port PoE Switch for Fixed Lens R-series Cameras

PRODUCT HIGHLIGHTS

- **Dual Junction Box Functionality:** A sturdy dual camera mount for R-Series fixed lens cameras
- **Integrated PoE Switch:** The junction box is self-powered, utilizing incoming power from your PoE switch.
- **Simplified Connectivity:** With a single network cable run, this junction box delivers both power and network access to two IP cameras, offering a neat and streamlined setup process
- **Weatherproof Durability:** Boasting an IP66 Weatherproof Rating, the junction box comes with all-weather grommets, ensuring a secure, moisture-tight installation for reliable performance in any condition.
- **Universal R-Series Compatibility:** Designed to work seamlessly with all fixed lens R-series IP Cameras, this junction box ensures that you can integrate it effortlessly into new or existing R-Series surveillance system.

PRODUCT SPECIFICATIONS

Interfaces	RJ45, 10/100, 2*POE-LAN+1*POE-WAN
Standard	IEEE 802.3 at/af
Uplink Port Rate	100 Mbps
Downlink Port Rate	100 Mbps
Exchange Capacity	1 Gbps
Packet Forwarding Rate	0.744 Mpps
Internal Cache	768 Kbits
Power Supply	1236
Max Port Power Supply	25W
Max Switch Power Supply	30W
Max Power Consumption	5W
Shell	Plastic & glass fiber
Installation	Wall mounting & lifting
Dimensions	240mm x 120mm x 70mm
Operating temperature	-22°F ~ +140°F (-30°C ~ +60°C)
RJ45	4KV
Lightning Protection	4KV
